Mr. Gordon Crawford  
Fansteel Wellman Dynamics  
P. O. Box 147  
Creston, IA 50801

Dear Mr. Crawford:

Re: Final RFA Report for  
Fansteel Wellman Dynamics  
Creston, Iowa  
EPA RCRA ID No. IAD065218737

The U. S. Environmental Protection Agency (EPA) has completed the Resource Conservation and Recovery Act (RCRA) Facility Assessment (RFA) for the above referenced facility. The purpose of this letter is to transmit to you a copy of the RFA report.

The objective of the RFA is to identify whether or not a release may have occurred at the facility. It is not an evaluation of the rate and extent of contamination and does not determine how harmful a release may be to human health and the environment. In the event that this information is needed, EPA will require the facility to perform a RCRA Facility Investigation (RFI). Such requirements are typically imposed either by issuance of a Consent Order or a Permit.

After you review the RFA report, we request that you submit any additional information or comments that you may have to my attention at the letterhead address. EPA will evaluate the need for corrective action at your facility based upon the RFA and any additional information you provide.

If you have any questions concerning the RFA, please do not hesitate to contact me at (913) 551-7724.

Sincerely,

Don Lininger  
Project Manager  
IOWA Section, RCRA Branch
